## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 2 – 9 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 2, the prior art does not disclose inserting weights wherein each combination is set separately from each other. As stated in the previous Office Action, the Examiner interprets "set" (as defined by Applicant's specification) as choosing among several thickness and/or weights to obtain a desired key-touch response. Regarding claim 4, the prior art does not show a mass member with plural insertable weights having plural combinations of weights. Nor does the prior art show plural weight mass member having a stopper for setting pivotal movement. Regarding claims 3 and 5 – 9, the reasons for allowance were noted in the Office Action dated April 11, 2003).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
